### [Company Overview](#)

With a vision to fortify our surroundings with next level of digital security systems, SATTELITE VISION was founded in 2010 by Mr. Ajay Mishra. As a technology intensive company, we are engaged in consultation and catering of globally accepted digital

security products for commercial, industrial, institutional and residential purpose.

First and foremost a customer oriented company, we provide total solution for CCTV Surveillance System, Biometric Time Attendance And Access Control System, Video Door Phone, and many other digital safety systems of modern world.

We have partnered with world leading entities in the field of electronic security and surveillance systems so that we can introduce latest digital security products in India..

Regular updates , training inputs have greatly improved our technical team and management capabilities. Highly qualified engineers and motivated employees are directly responsible for our enviable success in a little period of time. Our 'CEE' and 'ROHS' certifications vouch for our compliance to international standards and ensure our customers get the most advanced solutions.

We won the best reputation among customers due to our high-tech and best-quality products, together with strategies for effective pre-sales product planning, full after-sales technical guidance and long-term quality assurance
